BATTERY PARK CITY

The Visionaire (55 Battery Place)

Located in Battery Park, the 35-story Visionaire is a green building featuring natural materials, an advanced fresh air supply system, and energy-saving technology. It also boasts a fitness center and spa, a

landscaped roof garden, a sky-lit indoor pool, a children's playroom, and a 12-foot reef aquarium. But most noteworthy is its children's programming, provided by Wellness 360. "Because The Visionaire is truly a community, we have the opportunity to talk to the residents to find out exactly what they want and need," says Liz Neporent, president of Wellness 360. Just a few of the activities they offer: swim lessons, story times, and family movie nights.
